Terms of Sale

(Please read before bidding)

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5% advance over the highest actual bid.

Lots are sold at so much *per piece*, NOT by the lot. Thus, if there are 8 pieces in a lot and you wish to pay $2.00 for the lot, then make your bid 25 cents.

Everything is guaranteed genuine, unless otherwise stated.

New bidders should send references or a deposit of at least 25% of their total bids, otherwise they will not be accepted, since I can not be expected to send out goods on open account to persons whose good standing is not known to me.

Terms, prompt cash settlement after the sale, remittance to be made by money order, draft, check, or in any way most convenient to the purchaser. Stamps accepted under one dollar only.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. This fee is very low for the superior service I expect to give you.

To those known to me who have established credit, I will send out purchases on open account. In appreciation of this courtesy, the purchaser remits promptly.

Receipted bills are not sent out after your remittance as this is unnecessary. Your check, draft, or money order itself is a receipt. However, if a 2-cent stamp is enclosed we will send receipt.

Be certain that you bid on the lot you wish to buy. We will correct errors and adjust claims, but you should not expect us to pay for *your mistakes. Be careful* in making your bids. Be sure that you bid on the lot you wish to buy, and AT SO MUCH PER PIECE.

My classifications and descriptions are based on knowledge gained through more than 15 years of earnest dealing in coins and paper money. I have endeavored to refrain from over-rating the quality of a lot. It is quite natural and common for a collector to over-rate the condition of his own coins, sometimes without realizing it, just the same as a proud father brags about his child. But when a dealer sells a coin to a customer, he should place himself in the customer's place and abide by the golden rule. I want to have my customers get what they expect, and try to represent everything fairly.

If you do not know how much to bid on any item, write me and I shall be glad to inform you as to its value.

BIDS MUST REACH ME BY THE MORNING OF THE SALE. Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

LET ME SELL YOUR COLLECTION OR DUPLICATES IN THESE SALES. Quick returns and satisfactory results are realized. My sales are held regularly each month. Write for terms.

KEEP ON MY MAILING LIST and keep your address up-to-date by sending in some bids. If you find nothing to bid on, request next auction list simply by postal card to insure your getting it. You will find a great variety of numismatic material in this sale, some choice and rare items, and will be well paid for giving the contents of this catalog your careful perusal.

If you find nothing in this catalog to interest you, I would be pleased if you would hand it to an interested person if you can. REMEMBER, that if I do not hear from you for two or three sales, YOUR NAME IS SUBJECT TO WITHDRAWAL from my mailing list.

THE BEST WAY to insure yourself, is to SEND IN SOME BIDS. I want to thank my many customers for our pleasant dealings, the words of general satisfaction received, and the prompt remittances. Some collectors bought coins from me 15 years ago, and are still with me in my sales each month. Especially do I thank you.

PLEASE BID BY THE PIECE UNLESS STATED TO BID FOR THE LOT. Thus if there are 12 *pieces in a lot and you wish to pay* $6 *for the lot, then bid* 50c. *At each sale someone bids by the lot. Don't do this; bid by the piece.*

Read every WORD in this catalog—or you are very apt to miss just what you want.

Three Very Rare U.S. Cents

873. 1798 *large cent.* Obverse similar to Doughty 114 and 115 but with an *entirely different reverse* than either. Letters in UNITED STATES OF AMERICA small and widely spaced, several of the letters rather crude and irregular. Fraction bar long and equally spaced between 1 and 100. The figures in denominator widely spaced. A die crack connects top of OF with edge on each side, and another crack extends upward from left ribbon-end to E in CENT. A weakness in the striking extends across reverse from A in STATES to E in AMERICA. Condition very good. So far as I am aware this reverse has not been previously described.

874. 1801 cent. Newcomb No. 13. The *new variety discovered* in Jan. 1928 after the publication of Mr. Newcomb's book. This specimen is in a more advanced stage of die failure on reverse than the specimen illustrated in the supplement to Newcomb's book. The break now extends from T in STATES past the F in OF, reaching almost to the left foot of A in AMERICA. Parts of the date show incused on the break, very similar to advanced specimens of 1800 D. 151. Condition very good, slightly better than the other known specimen.

875. 1807 cent, over date. *Small 7 over small* 6. The excessively rare variety. Not in Doughty. The French catalog under No. 345 states that there are probably not more than 4 or 5 specimens known. This specimen is fine, well struck, and entirely free of defects except wear which is well distributed.

New Bidders, Please Read

At each sale there are a few bidders, probably half a dozen, who return a lot with the explanation that they did not bid on that number. Then we look up their bid sheets and find that they did bid on it. So we check it in red and return the sheet to the purchaser. We wish to treat everyone fairly, but the person who has so little integrity of character as to ask us to pay for their mistakes is, in fact, a parasite on humanity. We will gladly correct errors made by ourselves, and adjust claims that have merit, but it is unfair to us to have to pay for the other fellow's mistake. We expect all bidders to stand by their bids and accept and pay for the coins, providing the goods are as represented in the catalog, which condition we guarantee. Therefore, be certain that you have bid on the numbers you wish to buy and at so much per piece (for each coin or bill in the lot). No lot will be separated. Thus, if there are 8 pieces in a lot, and you wish to pay $6 for the lot, then bid 75c. If your bid is the highest, you will then get all eight pieces in that lot.

A few collectors have not paid for their coins bought at last sale. Up to time for going to press with this catalog we have not heard from them. If they do not pay their bills very soon, we are going to list their names on this page, so that other collectors and dealers will guard against them. We have settled with all the clients who had material in the sale, and it is unfair for a purchaser to hold up his remittance. If a person is not certain that he can pay for the coins, he ought not to bid. There are plenty of collectors who want the coins and can pay for them. We had more bidders at the last sale than at any previous sale in our experience. This paragraph applies to about one out of each seventy-five purchasers. To the other seventy-four, we only say that we thank you for your patronage and trust that you find each transaction as pleasant as we do.

For 42 years its monthly visits have been a source of inspiration and a stimulus to all grades of collectors, from the beginner to the advanced student.
